Douglas MD-90, and the Embraer KC-390. The engine's name is a combination of the Roman numeral V, symbolizing the five original members of the International Aero Engines consortium, which was formed in 1983 to produce the V2500 engine. The 2500 represents the 25,000 lbf (111 kN) produced by the original engine model, the V2500-A1 variant.

IAE V2500 - Wikipedia
switches for the A320 family. A differential pressure switch is mounted on the V2500 engine to detect filter clogging in the fuel, LOP and scavenge oil systems. When the
