Photography is a part of life, so to improve, be curious about all sorts of art, it all fits in to your vision. Change up what you're doing and grow: If you always shoot from a certain angle, go lower or higher. If you always shoot with available light add a strobe. If you shoot people mostly, get out and shoot landscapes.

Advancing Your Photography Secrets to Amazing Photos from —

For starters, keep a backup of every single one of your photos. Your photos should never be stored on just a single hard drive at a time, because eventually your hard drive will break. It's not a question of if, but when. Ideally, you would have at least three copies of all your photos at a given time. This should include at least two different media types, such as an internal hard drive and a removable storage medium.
