Professional is a

academics from a

'professional' and
reimagine

professionals in an
age of rapid change
where professionals
are both increasingly

threat. Several deploy
the lens of Clarke's

examine professions
including teaching,

midwifery, social work, journalism, and optometry. Some papers are empirical and some are based around using the Place Model as a thought experiment. All turn a critical eye on professionals and all find them to be, like all humans, neither devils nor divines (Maya
