Designed for use with any A&P textbook, this best-selling laboratory manual features a wide variety of exercises and activities to meet the needs of any anatomy & physiology laboratory course. Known for its thorough, clearly-written exercises, full-color art, and tear-out review sheets, this lab manual gives you a hands-on laboratory experience. It is also accompanied by an interactive website built specifically for the A&P lab course that features pre-lab and post-lab quizzes for every exercise, Practice Anatomy Lab™ 2.0, and PhysioEx™ 8.0. This latest edition features brand-new pre-lab quizzes at the beginning of each exercise. This new lab manual also features a brand-new art program that uses rich vibrant colors, 3D realistic rendering, and many new histology and cadaver photos.

The study of human anatomy and physiology really comes to life in the anatomy and physiology laboratory, where students get hands-on experience with human cadavers and bones, classroom models, preserved and fresh animal organs, histology slides of human tissues, and learn the process of scientific discovery through physiology experimentation. This lab manual is intended to provide students with tools to make the subject matter more relevant to their own bodies and to the world around them. It is an interactive workbook for students: a 'how-to' guide to learning human anatomy and physiology through touch, dissection, observation, experimentation, and critical thinking exercises. Chapter 28 is unique to this Cat Version of the Lab Manual and contains 16 exercises designed to walk students through dissection and identification of all systems and structures of the cat, beginning with the skeletal system and progressing through all systems.

Terry Martin, author of the best-selling laboratory manuals to accompany the Hole's Human Anatomy & Physiology texts, has written a stand alone laboratory manual. This series of laboratory manuals (main – no dissection, cat dissection, fetal pig dissection, and rat dissection) will incorporate Terry's clear, concise writing style. These manuals are not associated with any one text and were created for use with any anatomy and physiology text. The manuals also feature incredible artwork and photos. It can be packaged with Ph.I.L.S. 4.0.

This best-selling Laboratory Manual, written by Terry R. Martin, has been updated throughout. The new 14th edition is available in both a Cat version or a Fetal Pig version. Both versions of the 14th edition are organized into units that correlate directly with the text and include new and updated art to match Hole's Human Anatomy and Physiology, 14e.

For the one-semester human anatomy laboratory course. Everything students need for a successful lab experience With 30 exercises covering all body systems, a clear, engaging writing style, and full-color illustrations, Human Anatomy Laboratory Manual with Cat Dissections, 9th Edition provides

everything needed for a successful lab experience. Visual Summary Tables present complex information, and "Why This Matters" boxes help students relate the lab activity to a real-life or clinical example. The 9th Edition features new Clinical Application Questions that challenge students to apply lab concepts and critical-thinking skills to real-world clinical scenarios. And new full-color illustrations and photos replace many black and white line drawings to help students differentiate among structures and more easily interpret diagrams. The lab manual complies with the illustration and presentation style of Human Physiology text, but can be paired with any human anatomy textbook.

Designed for undergraduate courses emphasizing human anatomy and using the cat for dissection, this popular manual (organized by system) offers exercises that highlight the differences and similarities between feline and human anatomy.
