Forty-six essays, presented by avowedly anti-Castro editors and gathered mostly from US journals and books of the past couple decades, are organized into five sections devoted to the history, economy, society, military, and polity of Cuba. Some of the specific topics treated include: Cuban and Soviet relations; decentralization, local government, and participation; economic policies and strategies for the 1990s; the politics of sports; political and military relations; and forecasting institutional changes after Castro. In addition, two appendices present a chronology of the Cuban revolution from 1959 to 1998 and biographical essays on 19 revolutionary leaders.
