AS 3850.1 Part 1: General requirements. AS 3850.2 Part 2: Building construction. The new Standard is long overdue as the 2003 version was becoming irrelevant. The 2003 Standard was written primarily for the construction of concrete buildings using ‘tilt-up’ panels cast horizontally on site and does not apply to precast concrete members such as columns, beams, flooring and facades.

## ~~Event Detail – Concrete Institute of Australia~~

The revised version of AS 3850 will be named Prefabricated concrete elements. The new version has a much wider reach than the 2003 version - which primarily sought to regulate activities associated with site cast tilt-up panels. The revised Standard will apply to all prefabricated concrete elements used in building and construction.
