Hello! I just took the RN Maternal Newborn 2016 proctored assessment and received a level 3 and a 93.3%! My school requires us to take and pass them every month and get a level 2 or we do not move on. This test requires an 80% for level 3. I did not read any of my actual textbooks, but I did read the whole ATI Maternal Newborn study guide book.

~~93.3% Level 3 on RN Maternal Newborn 2016 - Tips - StudentNurse~~

I obtained a level 3 score on mental health, nursing care of the newborn, and nursing care of the child. Prior to my proctored ATI examination, I always received two weeks to prepare for the test. Exam Preparation: To prepare for the examinations, I always read the ATI books. Reading them can be daunting, but it's a necessity

A better way to learn maternal and newborn nursing! This unique presentation provides tightly focused maternal-newborn coverage in a highly structured text

Canadian Maternity and Pediatric Nursing prepares your students for safe and effective maternity and pediatric nursing practice. The content provides the student with essential information to care for women and their families, to assist them to make the right choices safely, intelligently, and with confidence.

For courses in Pediatric Nursing. A comprehensive survey of family-centered pediatric nursing care Child Health Nursing: Partnering with Children & Families promotes excellence in nursing care for infants, children, and adolescents—in hospitals and in the community. It focuses on the importance of partnering with families to adapt care plans for children based on their age, health status, and social and cultural influences. The text considers the impact of contemporary care environments on nursing practice, both in health promotion and in the care of children with acute or chronic health conditions. By offering industry best practices and practical applications, the book encourages students to apply evidence-based findings and clinical reasoning to planning superior care. The updated 3rd edition explains how modern nursing practice is affected by reforms to healthcare and its delivery—such as electronic health records, new approaches to chronic and acute condition management, and a focus on prevention. To support safe, effective, and innovative care, this edition draws on the latest recommendations of NANDA International diagnoses, Nursing Intervention Classifications (NIC), Nursing Outcomes Classifications (NOC), and Healthy People 2020. Also available with MyLab Nursing MyLab(tm) Nursing is an online self-study and class preparation program designed to engage students and improve results. Its personalized learning path helps students think like nurses as they move beyond memorization to true understanding through application. Learn more. Note: You are purchasing a standalone product. Publisher's Note: Products purchased from 3rd Party sellers are not guaranteed by the Publisher for quality, authenticity, or access to any online entitlements included with the product. Build the critical thinking capabilities essential to your success with this captivating, case-based approach. Maternity, Newborn, and Women's Health Nursing: A Case-Based Approach brings the realities of nursing practice to life and helps you acquire the understanding and clinical reasoning skills to ensure effective patient-centered care. This innovative text immerses you in realistic, case-based narratives that help you experience maternity, newborn, and women's health nursing concepts from the patient's perspective and confidently prepare for your clinical rotations. Accompanying units leverage these patient stories to enrich your understanding of key concepts and reinforce their clinical relevance, giving you unparalleled preparation for the challenges you'll face in your nursing career. Powerfully written case-based patient scenarios instill a clinically relevant understanding of essential concepts to prepare you for clinicals. Nurse's Point of View sections in Unit 1 help you recognize the nursing considerations and challenges related to patient-based scenarios. Step-by-Step Skills tutorials clarify common procedures. Unfolding Patient Stories, written by the National League for Nursing, foster meaningful reflection on commonly encountered clinical scenarios. Analyze the Evidence callouts present conflicting research to hone your critical thinking capabilities. Patient Teaching boxes highlight important information to communicate to patients. Lab Values help you recognize the significance of out-of-range values and make appropriate nursing interventions. The Pharmacy features detail essential pharmaceutical information at a glance. Interactive learning resources, including Practice & Learn Case Studies and Watch & Learn Videos, reinforce skills and challenge you to apply what you've learned. Learning Objectives and bolded Key Terms help you maximize your study time. Think Critically questions instill the clinical reasoning and analytical skills essential to safe patient-centered practice. Suggested Readings point you to further research for more information and clinical guidance.

This one-of-a-kind workbook dedicated to developing clinical judgment skills helps prepare you for the Next-Generation NCLEX® Exam (NGN) through practical thinking exercises in which you will apply the National Council of State Boards of Nursing (NCSBN) Clinical Judgment Model (CJM). A comprehensive collection of carefully developed clinical reasoning exercises range from basic to more complex and address all specialty areas. Answer key with robust rationales to remediate learning follows at the end of the book. Six-part organization guides you through the entire NGN test plan. Answer questions in the book itself or on a companion Evolve website for automated scoring and remediation.

Get the accurate, practical information you need to succeed in the classroom, the clinical setting, and on the NCLEX-RN® examination. Written by the foremost experts in maternity and pediatric nursing, the user-friendly Maternal Child Nursing Care, 6th Edition provides both instructors and students with just the right amount of maternity and pediatric content. This new edition includes updated case studies within Nursing Care Plans, as well as a new chapter on pediatric cancer. Focus on the family throughout emphasizes the influence of the entire family in health and illness. Expert authors of the market-leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate, up-to-date content. Critical thinking case studies offer you opportunities to test and develop your analytical skills and apply knowledge in various settings. Nursing Care Plans include rationales for interventions and provide you with an overview and specific guidelines for delivering effective nursing care. Nursing Alerts highlight critical information that you need to know when treating patients. Guidelines boxes outline nursing procedures in an easy-to-follow format. Emergency boxes in the maternity unit guide you through step-by-step emergency procedures. Home Care boxes detail important information that you need to deliver care to patients and families in the home setting. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, provide resources and guidance, and illustrate nursing care in a variety of settings. Patient Teaching boxes in the maternity unit highlight important information nurses need to communicate to patients and families. Cultural Competence boxes equip you with the knowledge you need to deliver culturally competent care. Family-Centered Care boxes draw attention to the needs or concerns of families that you should consider to provide family-centered care. Medication Guides serve as an important reference of drugs and their interactions. NEW! New chapter on pediatric cancer gives you the most up-to-date information on the latest topics. EXPANDED! Additional information on sexuality in the maternity section. EXPANDED! More content on spirituality in the family, culture, and spiritual chapters. EXPANDED and UPDATED! New content about LBGTQ+ included in the Transition to Parenthood chapter. NEW! Information on victims of sexual abuse as parents and human trafficking helps prepare you to handle these delicate issues. NEW and UPDATED! Case studies emphasize interprofessional care, demonstrating how nursing must collaborate with other health care disciplines to provide the most comprehensive care possible to women and children. UPDATED! Nursing Care Plans now incorporate case studies to personalize interventions and promote critical thinking.

The quick and easy way to learn the concepts and major theories of pediatric nursing – and how to apply them to real-world situations If you're looking for a fun, fast review that boils pediatric nursing down to its most essential, must-know points your search ends here! Pediatric Nursing Demystified is a complete yet concise overview of all the important pediatric nursing concepts and the disorders that most often afflict infants to adolescents. You'll also learn how to apply those principles to real-life clinical situations. In order to make the learning process as easy and effective as possible, you'll find learning aids such as chapter objectives, key terms, a brief overview of each topic, content summaries, chapter-ending questions, numerous tables and diagrams, and a comprehensive final exam that includes NCLEX-style questions covering all the content found in the book. Great for course exams and as an NCLEX review!
