Paige Ellerbee's life is far from perfect after moving back to small-town Maple Creek—there's her struggling bakery, Sweet Bee's; her aging father; and the fact she's

practically the only

single girl in town. But when Lane Anderson, the town's hot—and young!—new doctor, moves in next door, she wouldn't mind receiving some intensive care...until their first conversation starts a feud. Lane came to Maple Creek to lay low after inadvertently being associated with a pill-

When the gorgeous blonde next door asks for his help with a program that could raise eyebrows, he has to refuse. He's been burned in the past when blinded by love, yet Paige's feisty personality has his blood running hot.

When a little matchmaking lands Lane at Paige's best

A temporary truce might be just what they both want—but forever love might be more than they can agree on. When Cole's agent makes Liza a deal she can't refuse—a bet she will fall in love with Cole or a cool half mil goes to charity—the game is on. Even if it means betting against her own heart. Much of our behavior is
guided by our
understanding of events.
We perceive events
when we observe the
world unfolding around
us, participate in events
when we act on the

This synthesis leads to new proposals about several traditional areas in psychology and neuroscience including perception, attention, language understanding, memory, and problem solving.
