Birds of Central Asia | NHBS Field Guides & Natural History

Pelicans are large water birds with distinctive pouches under their bills. Like other birds in the order Pelecaniformes, they have four webbed toes. Great white pelican, *Pelecanus onocrotalus*; Australian pelican, *Pelecanus conspicillatus*; Pink-backed pelican, *Pelecanus rufescens*; Spot-billed pelican, *Pelecanus philippensis*

List of birds of Asia - Wikipedia

The top list on this page is the frequency of birds throughout the year. Many birds are migratory or otherwise vary in abundance between seasons. So the next two lists are the common birds ranked in winter and then in summer. The most common backyard birds in New York in winter (December to February) are these: 1. Black-capped Chickadee (42% ...
