You'll be amazed at what your blender can do for you! Blenders are the "it" accessory, mostly because smoothies are healthy and quick. Sure, but did you know you can also whiz up a mean burger—salmon, veggie, turkey, even beef—in a blender? Your blender is that good! Brownies, pancakes, slaws . . . there are so many things you can make easily and quickly. Not only that, but blending offers the perfect opportunity to sneak in some extra nutrition: Black beans in your chocolate cake? Carrots in your tomato sauce? Or a quick pulse of cauliflower that can stand in for cream in sauces and soups? A handy chart suggests ways to boost nutrition in recipes that you and your family will embrace. If a high-performance blender is already on your counter, this book is its obvious companion. Save money, eat healthier, and get dinner on the table in a jiffy with The Ultimate Blender Cookbook.

We know the value of eating fresh, healthy food. We know how wonderful it is to pluck a fresh apple off a tree and to eat it without pesticides, without processing, and without added sugar. The philosophy of juicing and smoothies is to appreciate those natural flavors that exist all around us. Draw in the bounty of the nutrients and fiber that our world provides for our sustenance. It's good both to incorporate natural foods into your daily diet and also to occasionally do a cleanse. A cleanse allows your body to free itself of allergens and toxins and to start fresh. It's like rebooting your computer to cleanse out any memory issues which may have cropped up. Version Note: This is an early release of this smoothie / juicing ebook. It currently has 17 recipes in it. Please email me and let me know your favorite fruits and veggies. I will then create custom recipes using those flavors. I'll both email them to you and add them to the book.
