When a bad day at work culminates in losing out on a promotion, Jim Sanders shifts into his animal form to let off steam. Then his bad day turns into a bad night—while prowling his Atlantic City neighborhood as a large gray house cat, he's caught in a torrential downpour. What little luck he has washes down the gutter when his new boss, Andrew Wright, catches him taking shelter on his porch, brings him inside, and starts calling him Mr. Frosty. As a feline, Jim becomes the inadvertent confessor for his boss's lonely son, Tony, a victim of schoolyard bullying. As a human, he feels drawn to Andrew, a man he wanted to resent. Finding love was never part of Jim's plan for the future—not with his bizarre secret—yet suddenly he finds himself navigating that minefield anyway. But not everything is easy, especially for an interracial gay couple dealing with prejudice in the workplace, at Tony's school, and even within their own families.

Hidden away by a secret society living high in the mountains of the Hindu Kush, an ancient codex known only as The Mode teaches a connection between the mechanical and metaphysical aspects of the universe and foretold of the coming of a great teacher, a mechanical messiah. A few millennia later, a group of Seekers wise in the ways of the Mode meet the "Chosen One," a young mechanical genius from Detroit who they initiate into this antediluvian tradition. A prophesy, an unusual birth, mystical teachings, almost a dozen apostles, an amazingly successful ministry, plotting, betrayal, punishment... All of the elements of one of the greatest stories ever re-told. In this gentle but skewed refracton of the Gospels, Robert Greco and Shaun M. Shelton examine what it means to be a messiah in modern society, as well as the deeper question: can faith be funny?

Turn Your Great Idea into a Thriving Business! "A guide that sets first-time entrepreneurs' feet in the right direction." Geoffrey Moore, author, Crossing the Chasm "There are many books on entrepreneurship, but this is one of the few that will convert individuals to entrepreneurs." Desh Deshpande, founder, Deshpande Center for Technological Innovation, MIT; chairman, AI23 Systems; cochair, National Council for Innovation and Entrepreneurship About the Book: Are you among the many Americans who dream of starting a business but think you don't know how? Help has arrived . . . For generations, Dartmouth College and the Tuck School of Business have influenced and driven global entrepreneurship. Dartmouth firsts include the world petroleum industry, technological breakthroughs like artificial intelligence and BASIC computer language, as well as popular products, such as the Nerf football and the game Crainium. Today a key resource for the Dartmouth Community is the Dartmouth Entrepreneurial Network (DEN), which helps anyone from undergraduates to faculty to alumni get their ideas off the ground and into the marketplace.
