* Important: Since these are real time weather readings, remember the time of day in the regions may be quite different.

Lesson 4: Track Weather like a Meteorologist
Weather is the condition of the atmosphere in a place over a short period of time. Meteorology is the study of the atmosphere, including weather over such time. Because weather affects so many aspects of our life, meteorology is an increasingly important science. The first people to study weather were in ancient times with crude instruments.
