The movie "Fast Food Nation" and the book of the same title are very different. The book is very well sourced, well researched and has stood up to scrutiny. The film is horribly sourced, and doesn't provide 1/10th the background or factual data, and is far to speculative. There is no such thing as "fast food grade meat".

Explores the homogenization of American culture and the impact of the fast food industry on modern-day health, economy, politics, popular culture, entertainment, and food production.

Every book tells a story . . . And the 70 titles in the Pocket Penguins series are emblematic of the renowned breadth and quality that formed part of the original Penguin vision in 1935 and that continue to define our publishing today. Together, they tell one version of the unique story of Penguin Books. Eric Schlosser's inimitable brand of hard-hitting yet always entertaining writing looks beneath the surface of American life to examine issues ranging from the black market to burgers. When Penguin published his expose Fast Food Nation in 2001, it sparked a storm in the fast food industry. This piece on the terrifying true cost of cheap meat shows why Schlosser has been instrumental in changing our attitudes to what we eat.

Provocative, edgy, and compelling, the first play by the author of Fast Food Nation and Reefer Madness is about patriotism, power, the allure of violence. Brilliantly written, morally complex and chillingly original, Americans explores the origins of the American empire and the imprint it now leaves on the world.

Kids love fast food. And the fast food industry definitely loves kids. It couldn't survive without them. Did you know that the biggest toy company in the world is McDonald's? It's true. In fact, one out of every three toys given to a child in the United States each year is from a fast food restaurant. Not only has fast food reached into the toy industry, it's moving into our schools. One out of every five public schools in the United States now serves brand name fast food. But do kids know what they're eating? Where do fast food hamburgers come from? And what makes those fries taste so good? When Eric Schlosser's best-selling book, Fast Food Nation, was published for adults in 2001, many called for his groundbreaking insight to be shared with young people. Now Schlosser, along with co-writer Charles Wilson, has investigated the subject further, uncovering new facts children need to know. In Chew On This, they share with kids the fascinating and sometimes frightening truth about what lurks between those sesame seed buns, what a chicken 'nugget' really is, and how the fast food industry has been feeding off children for generations.

More people write for The Associated Press than for any newspaper in the world, and writers-nearly two million of them-have bought more copies of The AP Stylebook than of any other journalism reference. It provides facts and references for reporters, and defines usage, spelling, and grammar for editors. There are separate sections for journalists specializing in sports and business, and complete guidelines for how to write photo captions, file copy over the wire, proofread text, handle copyrights, and avoid libel. This edition of The AP Stylebook keeps pace with world events, common usage, and AP procedures.

"Discover the eating plan that revolutionized the way Americans think about their meals, updated for its fiftieth anniversary with new recipes for the modern meatless chef. "In the . . . years since the publication of Diet for a Small Planet, a movement dedicated to the reform of the food system has taken root in America. Lapp é 's groundbreaking book connected the dots between something as ordinary and all-American as a hamburger and the environmental crisis, as well as world hunger." --Michael Pollan. Upon its release in 1971, Diet for a Small Planet was truly groundbreaking. This extraordinary book taught America the social and personal significance of a new way of eating : environmental vegetarianism. World hunger was not a matter of lack of food, it argued, but of lack of justice in our food systems. Half a century later, it is still a complete guide for eating well in the Twenty-First century. Sharing her personal evolution and how this revolutionary vegetarian-focused book changed her own life, world-renowned food expert Frances Moore Lapp é offers a fascinating philosophy on changing yourself--and the world--by changing the way you eat. This edition features 85 modern meatless recipes, including more than a dozen new entries by celebrity chefs such as Mark Bittman, Padma Lakshmi, Alice Waters, Jos é Andr é s, Bryant Terry, Mollie Katzen, and Sean Sherman"--
