One of the first things students are taught in film school is the nomenclature of the basic types of camera shots. This common language is essential for writers, directors, camera operators, and cinematographers to effectively communicate visual elements of a shot, particularly the size of a subject—often a person—within the frame. Provided here is a list of the essential shot types that ...

Framing (or shot length): extreme long shot (usually an establishing shot, from as much as a quarter mile away), long shot (this is a "life size" shot that corresponds with the distance between audience and screen in a cinema; it focuses on the characters and the background images), medium shot (this is usually used for dialogue scenes or a ...

This international best-seller is filled with visual techniques for filmmakers and screenwriters who want to expand their stylistic knowledge.

Shot by Shot is the world's go-to directing book, now newly updated for a special 25th Anniversary edition! The first edition sold over 250,000 copies, making it one of the bestselling books on film di-recting of all time. Aspiring directors, cinematographers, editors, and producers, many of whom are now working professionals, learned the craft of visual storytelling from Shot by Shot, the most com-plete source for preplanning the look of a movie. The book contains over 800 photos and illustrations, and is by far the most comprehensive look at shot design in print, containing storyboards from movies such as Citizen Kane, Blade Runner, Dead-pool, and Moonrise Kingdom. Also introduced is the concept of A, I, and L patterns as a way to sim-plify the hundreds of staging choices facing a director in every scene. Shot by Shot uniquely blends story analysis with compositional strategies, citing examples then il-lustrated with the storyboards used for the actual films. Throughout the book, various visual ap-proaches to short scenes are shown, exposing the directing processes of our most celebrated au-teurs -- including a meticulous, lavishly illustrated analysis of Steven Spielberg's scene design for Empire of the Sun.

Directing: Film Techniques and Aesthetics is a comprehensive manual that teaches the essentials of filmmaking from the perspective of the director. Ideal for film production and directing classes, as well as for aspiring and current directors, Directing covers all phases of preproduction and production, from idea development to final cut. Thoroughly covering the basics, Directing guides the reader to professional standards of expression and control, and goes to the heart of what makes a director. The book outlines a great deal of practical work to meet this goal, with projects, exercises. The third edition emphasizes the connection between knowing and doing, with every principle realizable through projects and exercises. Much has been enhanced and expanded, notably: aspects of dramaturgy; beats and dramatic units; pitching stories and selling one's work; the role of the entrepreneurial producer; and the dangers of embedded moral values. Checklists are loaded with practical recommendations for action, and outcomes assessment tables help the reader honestly gauge his or her progress. Entirely new chapters present: preproduction procedures; production design; script breakdown; procedures and etiquette on the set; shooting location sound; continuity; and working with a composer. The entire book is revised to capitalize on the advantages offered by the revolutionary shift to digital filmmaking.

"Cinematic Motion has helped directors create a personal camera style and master complex staging challenges for over a decade. In response to the opportunities offered by digital technology, this second edition adds essential chapters on digital visualization and script breakdown."--Jacket.

A guide for filmmakers at all levels explains a variety of cinematic techniques used in films, videos, and commercials, and includes tips on basic camera setups and the use of storyboards

This is the only book that combines conceptual and practical instruction on creating polished and eloquent images for film and video with the technical know-how to achieve them. Loaded with hundreds of full-color examples, The Filmmaker's Eye is a focused, easy-to-reference guide that shows you how to become a strong visual storyteller through smart, effective choices for your shots. This book has struck a chord worldwide and is being translated into several languages After a short introduction to basic principles, a variety of shots are deconstructed in the following format: - Why It Works: an introduction to a particular type of shot - How It Works: callouts point out exactly how the shot works the way it does--the visual rules and technical aspects in action - Technical Considerations: the equipment and techniques needed to get the shot. - Breaking the Rules: examples where the "rules" are brilliant subverted

Everything you ever wanted to know about making a movie but were afraid to ask... Lights, camera, action! We all have at least one movie in us, and the amazing and affordable advances in digital technology makes it increasingly easy to make your dream a reality and share it with the world. Filmmaking for Dummies is your definitive guide to bringing a project to life, from the comedy antics of loveable pets to the deepest, most meaningful independent film. Bryan Michael Stoller is your friend and guide, sharing his knowledge gained over 100 productions (directing and working with Dan Aykroyd, James Earl-Jones, Barbra Streisand and Drew Barrymore, among others) to show you how to take your movie from the planning and storyboarding stage, through shooting and editing, to making it available to your adoring audiences through television broadcast, streaming online or in movie theaters. For the do-it-your-selfer, the book includes tips on how to finance your project, a look at the latest software and apps, including advancements in digital technology, and for the passionate director, advice on how to hire and work with your cast and crew and find great scenic locations. Whether you want to become a professional filmmaker or just create great YouTube videos or nostalgic home movies, shooting with your smartphone or with consumer or pro-gear, this practical guide has it all. Learn how to compose your shots and when to move the camera Make the perfect pitch to sell your story Take advantage of helpful contacts and tons of new resources Get up-to-date on the latest and greatest digital technology Find the right distributor, or learn how you can be your own distributor! So, you really have no excuses to make your masterpiece. Get rolling with a copy of Filmmaking for Dummies today and start shooting for the stars!

• Insider author gives no-nonsense advice • Required reading for film students, educators, anyone interested in film From script analysis to post production, here is the all-inclusive guide to directing for film and television. Written by noted director-producer Myrl Schreibman, The Film Director Prepares offers practical insights on filmmaking, using real-life examples directors won ' t learn in school. With topics including working with actors, using the camera to tell a story, setting mood, staging, maintaining performance levels, covering shots, and directing for different mediums, The Film Director Prepares will leave new directors truly prepared for their careers.

"Through detailed examinations of passages from classic films, Marilyn Fabe supplies the analytic tools and background in film history and theory to enable us to see more in every film we watch"--Page [4] of cover.

This book is a " directing-altering book " as it provides high-quality learning resources that encourage and challenge film enthusiasts, aspiring directors, film students, and professionals to strive for new levels of excellence and impact in their film directing, television directing, and new media directing. This book puts forward a well-informed and innovative discussion of critical director ' s choices that have not previously been considered by existing texts on film and television directing. This book presents a wide range of directorial concepts and directing exercises that include: • Psycho-physiological regularities in left-right/right-left orientation transferred to a shot design. How directors can manipulate the viewer ' s perception of a character and of the journey they are on using screen direction. • Methodology and visual strategy for rendering a scene based on character perspective. • The directorial concept of emotional manipulation. • Demystifying the 180-degree rule.
