Dr. Shaheen, studying over 100 different popular entertainment programs, cartoons and major documentaries telecast on network, independent and public channels, totaling nearly 200 episodes that relate to Arabs, has thrown new and revealing light on the stereotypes of people from the Middle East.

Dr. Shaheen, studying over 100 different popular entertainment programs, cartoons and major documentaries telecast on network, independent and public channels, totaling nearly 200 episodes that relate to Arabs, has thrown new and revealing light on the stereotypes of people from the Middle East.

Made in Nusantara serves as a comprehensive introduction to the history, sociology, ethnography, and musicology of historical and contemporary popular music in maritime Southeast Asia. Each essay covers major figures, styles, and social contexts of genres of a popular nature in the Nusantara region including Malaysia, Indonesia, Brunei, Singapore, and the Philippines. Through a critical investigation of specific genres and their spaces of performance, production, and consumption, the volume is organised into four thematic areas: 1) issues in Nusantara popular music; 2) history; 3) artists and genres; and 4) national vs. local industries. Written by scholars working in the region, Made in Nusantara brings local perspectives to the history and analysis of popular music and critically considers conceptualisations developed in the West, rendering it an intriguing read for students and scholars of popular and global music.
--

Sonic Modernities analyses the interplay between the production of popular music, shifting ideas of the modern and, in its aftermath, processes of social differentiation in twentieth-century Southeast Asia.

It is said that school leavers in Indonesia are not able to speak English confidently. They have no courage to speak, even though they actually feel that they have something to say in their mind. They are afraid to make mistakes when speaking because they never feel happy with their English grammar and vocabulary at school. English for Everyday Speaking is directed at those who have learned English and have no courage to speak but want to practice their spoken English. This book is not only suitably used by high school students, university students, language centers, English course learners and English speaking club members as a main course book for speaking, but also for employees, workers, staff, teachers, employers or members of a family as a core handbook for language practice during their leisure time. This book covers very common daily topics which everyone is familiar with, such as Daily Activities, Personal Information, Family Life, Culture, Sport, Housemaids, Hobbies and Interests, Smoking and Drinking, Music, Health, Education, School Life, Love, Holiday, Food and Drink, Marriage, Sex, Demonstrations & Strikes, Terrorism, Crime and Prisons, Debates, etc. The questions, which are intended to arouse learners to speak, are generally simple to answer for ordinary learners. They need practical ideas or knowledge but do not need deep academic or scientific knowledge to answer them. However, if the group of learners have more advanced knowledge about the topics and are interested to delve deeper on the topics, there are also some possibilities to do so. English for Everyday Speaking is designed by an experienced English teacher. In addition, these materials have been tried out at STP Bandung, STBA, Maranatha University, the Center at J. Setiabudhi, Bandung and some other language centers.

The 7th Bandung Creative Movement conference presented the theme "Dynamics of Industrial Revolution 4.0" which discussed how the digital world and connectivity changed human culture in various aspects of life, and transformed in accordance to human needs and social culture. Digital technology has transformed society to serve people from manufacturing needs to smart cities, from network connectivity to people connectivity. The application of information technology has helped in improving live quality and environmental sustainability. Digital transformation is revolutionizing how businesses and workers interconnect to be more productive and efficient. The result is improved collaboration, faster processes and time-to-market, lower costs and better products. Devices are getting smarter, meaning they are able to perform more and more tasks without human intervention; moreover, these devices generate data that provide insights to further improve processes and gain greater efficiencies. Moreover, with the Internet of Things (IoT), all these smart devices are interconnected in ways that not only help make them even smarter, but also enhances the intelligence of the overall system. Digital technology is a formidable driver for the transformation of a highly carbon-dependent world into one that is more ecologically smart. We are entering a new era of environmental innovation that is driving better alignment between technology and environmental goals. Since its first announcement in 2011, industrial revolution 4.0 has dynamically changed and transformed to adjust itself to the human needs and to serve more efficiency and effectiveness of everyday life as well as environmental enhancement. The 7th Bandung Creative Movement has brought forward discussions on dynamic changes, ups and downs, innovations, relations of industrial revolution of the internet of thing, data, automation, to human physical world, new art and aesthetic, business, product innovation, built environment, and education.

This book aims to describe aspects of the Indonesian language as spoken by educated Jakartans in everyday interactions. This style of language is in many ways significantly different from the formal language of government and education, to the extent that it deserves separate consideration. While formal Indonesian has been the subject of a considerable amount of description very little attention has been paid to informal styles of the language. The variety described here, Colloquial Jakartan Indonesian, is the prestige variety of colloquial Indonesian and is becoming the standard informal style. The description and texts in following chapters are drawn from recordings of natural speech of educated people living in Jakarta . While the book aims to inform those with a background in linguistics the needs of teachers and learners with little or no knowledge of linguistics is always borne in mind. The work thus does not consider theoretical linguistic issues nor use technical terms which would not be readily understood by most readers.

The sixth edition of Professional Meeting Management is the newest edition of the longtime standard reference and textbook for the meetings industry and meetings education. This is the first student and meeting professionals textbook aligned with the new Certified Meeting Professional (CMP) International Standards, which will be used by the Convention Industry Council as a reference book for item writing for the CMP Certification Examination. It includes the most up-to-date information on current trends, strategic planning for meetings, budgeting and funding, marketing and promotion, technology, running and closing the meeting, and industry developments on the horizon.
--

This volume brings together new scholarship by Indonesian and non-Indonesian scholars on Indonesia ' s cultural history from 1950-1965. During the new nation ' s first decade and a half, Indonesia ' s links with the world and its sense of nationhood were vigorously negotiated on the cultural front.
