Health Nervous System Review Answer Key

Nervous System. The nervous system is like a network that relays messages back and forth from the brain to different parts of the body. These messages allow you to do things like walk, think, feel, be scared, and even breathe. The brain is the central computer that controls all the functions of your body. These activities will help your

Grades 6 to 8 • Human Body Series Nervous System

response to stimuli from the nervous system. We plan our movement in the brain, and the nervous system transmits that plan to the muscles. At the muscles, the nervous system stimulates contraction but stimulates only those motor units needed for that particular task. In Chapter 6 you learned about neuromuscular junctions. Review . Figure 6.8
