Gain a knowledge of counseling methods that are practical and consistent with Christian theological convictions. What do the Scriptures say about counseling? What is the biblical basis for using Scriptures in counseling? What does it mean to think biblically about counseling-related issues? At the root of this book is the confidence that Christ and his Word are not only sufficient for effectively handling the personal and interpersonal challenges of life but are superior to the resources found in the world. The practice of psychological counseling is a ministry and should not belong only to the realm of humanistic and secular theories of the mind. Written to pastors, elders, deacons, seminary students, and laypeople, well-known pastor John MacArthur and contributors present a system of biblical truth that brings together people, their problems, and the living God. This kind of counseling is based on the convictions that: God's Word should be our counseling authority. Counseling is a part of the basic discipling ministry of the local church. God's people can and should be trained to counsel effectively. Counseling: How to Counsel Biblically provides biblical guidelines to counsel people who are struggling. The contributors represent some of America's leading biblical teachers and counselors, including: Ken L. Sarles, David Powlison, Douglas Bookman, David B. Maddox, Robert Smith, William W. Goode, and Dennis M. Swanson.

Many sermons preached today lack the divine knowledge and spiritual understanding available only through dynamic expository preaching. In Preaching: How to Preach Biblically, John MacArthur' well-known passion for the Bible combines with the expertise of faculty members at The Master's Seminary to inspire and equip preachers in effective biblical preaching. Preaching: How to Preach Biblically flows from biblical foundations for expository preaching through a detailed process of developing expositions and creating sermons to the actual delivery of expository messages, connecting what pastors learn in seminary with the sermons preached in a local church. This volume shows how to progress purposefully from one phase to the next in preparing to minister to God's people through preaching. This book answers these questions and more: What is expository, biblical preaching? What are the theological and historical foundations for insisting on expository preaching? What are the steps involved in preparation for and participation in biblical preaching? What models exist for expository preaching today? The Master's Seminary faculty, with over thirty years' experience in preaching and seminary training of preachers, contributes a treasury of expertise alongside insights from expositor John MacArthur. While united on their commitment to exposition, the variety of individual expressions and methodological preferences discussed offers beneficial assistance for any preacher seeking a higher level of expository excellence.

Pastor John MacArthur combines his passion for the Bible with the training expertise of faculty members at The Master's Seminary to guide seminary students and ministry leaders in developing their pastoral ministry skills. Pastors today can easily become preoccupied with the many pitfalls of modern culture, buying into the idea of image and straying from Jesus's call to shepherd leadership. Pastoral Ministry: How to Shepherd Biblically presents a practical pastoral theology aimed at showing pastors and pastors-in-training the vital role God's word plays in shaping the preparation and maintaining the priorities of pastoring. The authors examine the biblical teaching about the high and demanding call to ministry required of any spiritual shepherd. You'll learn how to pursue intentional growth through the stages of calling, training, and ministering to God's church—along the way, uncovering answers to questions such as: How does the Bible establish a philosophy of pastoral ministry, and what is it? Who is personally qualified to be an undershepherd of God's flock? What are the biblical preparations required of shepherd leaders? What priority does God's word place on activities involved in pastoral ministry? United in affirming shepherd leadership as the biblical model for pastoral ministry, The Master's Seminary faculty contributes a treasury of expertise alongside insights from well-known Bible teacher John MacArthur. This book will inspire any pastor dedicated to serving God's church in the pattern of Jesus Christ.

The Christian Counselor's Manual is a companion and sequel to Dr. Jay Adams' influential Competent to Counsel, which first laid out a vision of "nouthetic" counseling—a strictly biblical approach to behavioral counseling and therapy. This practical guide takes the approach of nouthetic counseling introduced in the earlier volume and applies it to a wide range of issues, topics, and techniques in counseling, including: Who is qualified to be a counselor? How can counselees change? How does the Holy Spirit work? What role does hope play in therapy? What is the function of language in a counseling session? How do we ask the right questions? What often lies behind depression? How do we deal with anger? What is schizophrenia? These and hundreds more questions are answered and explained from a biblical perspective in this comprehensive resource for the Christian counselor. A full set of indexes, a detailed table of contents, and a full complement of diagrams and forms make this an outstanding reference book for and Christian counselor.

Pastors spend much of their time counseling people in crisis—a delicate task that requires one to carefully evaluate each situation, share relevant principles from God's Word, and offer practical suggestions for moving forward. Too often, however, pastors feel unprepared to effectively shepherd their people through difficult circumstances such as depression, adultery, eating disorders, and suicidal thinking. Written to help pastors and church leaders understand the basics of biblical counseling, this book provides an overview of the counseling process from the initial meeting to the final session. It also includes suggestions for cultivating a culture of discipleship within a church and four appendixes featuring a quick checklist, tips for taking notes, and more.

A Classic in the Field of Christian Counseling Competent to Counsel has helped thousands of pastors, students, laypersons, and Christian counselors develop both a general approach to Christian counseling and a specific response to particular problems. Using biblically directed discussion, nouthetic counseling works by means of the Holy Spirit to bring about change in the personality and behavior of the counselee. As Dr. Jay Adams points out in his introduction, "I have been engrossed in the project of developing biblical counseling and have uncovered what I consider to be a number of important scriptural principles. ... There have been dramatic results. ... Not only have people's immediate problems been resolved, but there have also been solutions to all sorts of long-term problems as well." Since its first publication in 1970, this book has gone through over thirty printings. It establishes the basis for and an introduction to a counseling approach that is being used in pastors' studies, in counseling centers, and across dining room tables throughout the country and around the world
