This soup-to-nuts collection of recipes covers everything you need to know to perform your job as a Linux network administrator, whether you're new to the job or have years of experience. With Linux Networking Cookbook, you'll dive straight into the gnarly hands-on work of building and maintaining a computer network. Running a network doesn't mean you have all the answers. Networking is a complex subject with reams of reference material that's difficult to keep straight, much less remember. If you want a book that lays out the steps for specific tasks, that clearly explains the commands and configurations, and does not tax your patience with endless ramblings and meanderings into theory and obscure RFCs, this is the book for you. You will find recipes for: Building a gateway, firewall, and wireless access point on a Linux network Building a VoIP server with Asterisk Secure remote administration with SSH Building secure VPNs with OpenVPN, and a Linux PPTP VPN server Single sign-on with Samba for mixed Linux/Windows LANs Centralized network directory with OpenLDAP Network monitoring with Nagios or MRTG Getting acquainted with IPv6 Setting up hands-free networks installations of new systems Linux system administration via serial console And a lot more. Each recipe includes a clear, hands-on solution with tested code, plus a discussion on why it works. When you need to solve a network problem without delay, and don't have the time or patience to comb through reference books or the Web for answers, Linux Networking Cookbook gives you exactly what you need.

Emergency medicine attendings who wish to hone their teachingskills can find a number of books on educational strategies writtenby physicians from other disciplines. However, until thepublication of the first edition of this book, they did not haveaccess to a text written by emergency medicine physicians onmethods of teaching that are directly applicable to teaching EM. This book was compiled to meet that need. Following the introductory section, which provides importantbackground information, the book ' s contents are organizedinto 4 sections that correspond to the core needs and interests ofEM educators: Section 2 focuses on practical and ethicalconsiderations of teaching in the ED; Section 3 provides strategiesfor teaching specific groups of learners; Section 4 looks at theskills that are characteristic of the best EM educators; andSection 5 looks indepthly at specific teaching techniques andstrategies. Now more than ever this book addresses the needs of physicianeducators from all over the world. New chapters discuss lecturingto an international audience; using simulation as a teaching tool;how to make journal club work for you, and other topics that are ofbroad interest to medical educators in this field. In general, each chapter has been updated and reviewed to make surethe content was something that emergency physician educators coulduse in any country . The chapter contributors are widely regarded as leaders in thefield of emergency medicine education and faculty development. Authors were given free rein to develop their chapters and write intheir own style. They were asked to present their personal views onhow to successfully teach the art of emergency medicine, ratherthan review evidence-based guidelines regarding medical education.As a result, most of the chapters have few references. Thisfirst-person approach to a multi-authored textbook yields acompilation that varies in style from chapter to chapter andexposes the reader to a variety of communication techniques.

This compelling novel follows four women as they learn to balance children, estranged husbands, boyfriends, and problems at work through their faith in God. Michelle, Tonya, Mrs. Judson, and Miz Ida. African-American, white, rich, poor -- they seemingly have nothing in common. Yet every day they face the complex realities of twenty-first-century urban life as they try to balance their needs with their belief in God. Through the course of a year, these women must come to terms with the past, discover their true identities, and recognize the unexpected miracles that reveal God's all-encompassing love. These four women entertain us and invite us to join in their lives. As they welcome us, they also introduce us to the men in their lives. The men play supporting roles, adding color and zest to the lives of the Cover Girls. Bishop Jakes knows the struggles real women encounter and the losses that make it difficult to face the future. He brings compassionate insight and deep wisdom to this novel and proves that he is not only a gifted preacher, but a born storyteller.
