The LT1, along with its more powerful stablemate, the LT4, raised the bar for performance-oriented small-blocks until the introduction of the LS1 in 1997. The LT1/LT4 engines are powerful, relatively lightweight, and affordable. They powered Chevrolet's legendary Impala SS (and thousands of similar police cars), Corvettes, and Camaros and remain viable choices for enthusiasts today. This book investigates every component of these engines, discussing their strong and weak points and identifying characteristics. Upgrades and modifications for both improved power production and enhanced durability are described and explained in full.

A collection of Jackson's letters from prison, "Soledad Brother" is an outspoken condemnation of the racism of white America and a powerful appraisal of the prison system that failed to break his spirit but eventually took his life. Jackson's letters make palpable the intense feelings of anger and rebellion that filled black men in America's prisons in the 1960s. But even removed from the social and political firestorms of the 1960s, Jackson's story still resonates for its portrait of a man taking a stand even while locked down.

Winner of the Nobel Prize for physiology and medicine, Dr. Alexis Carrel, one of the truly great scientists who ever lived, tells us what man is in terms of his mental and physical make-up—and how he can become the actual rule of his universe if he learns to use wisely his amazing, God-given powers. " The wisest, profoundest, most valuable book that I have come upon in the American literature of our century " —Will Durant, Author of Story of Philosophy " Significant, candid, courageous and genuinely sincere " —New York Times " Provocative and stimulating " —Saturday Review " A work of genius...the spaciousness, the variety of outlook, the brave disregard for currently accepted beliefs that characterize great books " —New York Herald Tribune

Intended for the growing number of composition faculty members involved in training graduate teaching assistants (TAs) and adjunct faculty to teach, as well as new teachers, this book presents essays addressing how best to prepare new teachers to teach writing, and what advice to offer new teachers about particular aspects of teaching writing. Also of value for faculty already engaged in teaching writing, many of the book's essays include substantial bibliographies, and all the essays outline successful strategies of the writing teacher. The essays and their authors are as follows: (1) "Unifying Diversity in the Training of Writing Teachers" (Richard C. Gebhardt); (2) "The Basics and the New Teacher in the College Composition Class" (Charles W. Bridges); (3) "TA Training: A Period of Discovery" (William F. Irmscher); (4) "Linking Pedagogy to Purpose for Teaching Assistants in Basic Writing" (Richard P. VanDeWeghe); (5) "The Teaching Seminar: Writing Isn't Just Rhetoric" (Nancy R. Comley); (6) "Fear and Loathing in the Classroom: Teaching Technical Writing for the First Time" (Don R. Cox); (7) "The Literature Major as Teacher of Technical Writing" (O. Jane Allen); (8) "The Great Commandment" (John J. Ruskiewicz); (9) "Writing Right Off: Strategies for Invention" (Mary Jane Schenck); (10) "Planning for Spontaneity in the Writing Classroom and a Passel of Other Paradoxes" (Ronald F. Lunsford); (11) "Making Assignments, Judging Writing, and Annotating Papers: Some Suggestions" (Richard L. Larson); (12) "On Not Being a Composition Slave" (Maxine Hairston); (13) "Portfolio Evaluation: Room to Breathe and Grow" (Christopher C. Burnham); and (14) "How TAs Teach Themselves" (Timothy R. Donovan, Patricia Sprouse, and Patricia Williams). (HTH)

This work presents a brief history of the city of Montreal, as well as a description of the city's main squares, parks, public buildings, churches and more. The work also includes numerous photographs and illustrations of historical buildings and more.

This book, which originally appeared as a special issue of TDR/The Drama Review, explores the myriad aesthetic, cultural, and experimental possibilities of radiophony and sound art. Art making and criticism have focused mainly on the visual media. This book, which originally appeared as a special issue of TDR/The Drama Review, explores the myriad aesthetic, cultural, and experimental possibilities of radiophony and sound art. Taking the approach that there is no single entity that constitutes "radio," but rather a multitude of radios, the essays explore various aspects of its apparatus, practice, forms, and utopias. The approaches include historical, political, popular cultural, archeological, semiotic, and feminist. Topics include the formal properties of radiophony, the disembodiment of the radiophonic voice, aesthetic implications of psychopathology, gender differences in broadcast musical voices and in narrative radio, erotic fantasy, and radio as an electronic memento mori. The book includes a new piece by Allen Weiss on the origins of sound recording. Contributors John Corbett, Tony Dove, René Farabet, Richard Foreman, Rev. Dwight Frizzell, Mary Louise Hill, G. X. Jupiter-Larsen, Douglas Kahn, Terri Kapsalis, Alexandra L. M. Keller, Lou Mallozzi, Jay Mandeville, Christof Migone, Joe Miluis, Kaye Mortley, Mark S. Roberts, Susan Stone, Allen S. Weiss, Gregory Whitehead, David Williams, Ellen Zweig

In GM LS-Series Engines: The Complete Swap Manual, expert Joseph Potak walks you through all the steps involved in installing an LS engine into any vehicle, from concept to completion. Variants of GM ' s groundbreaking family of LS engines are installed in everything from the company ' s most mundane panel vans to its earth-shaking Corvette ZR1. First underhood in the 1997 Corvette, the LS1, and its successors have proven powerful, reliable, and amazingly fuel efficient. Since that time, more than a dozen variants have been produced, ranging from bulletproof, iron-block 4.8-liter workhorses to the supercharged 7.0-liter LS7. Performance enthusiasts have embraced this remarkable V-8, and it has quickly become a favorite for engine swaps. Why? Because the versatile engine offers fantastic power, a compact design, and light weight, and it responds very well to performance modifications. The key to this performance is a sophisticated electronics package that can intimidate even the most adventurous hot rodder. In GM LS-Series Engines: The Complete Swap Manual, professional LS-series engine specialist and technician Joseph Potak details all the considerations involved in performing this swap into any vehicle. With clear instructions, color photos, diagrams, and specification tables, Potak guides you through: Mounting your new engine Configuring the EFI system Designing fuel and exhaust systems Sourcing the correct accessories for your application Transmission, torque converters, and clutches Performance upgrades and power-adders Troubleshooting, should problems arise This is the ultimate guide to installing an LS in your project car.

The Death Penalty, Third Edition, brings together all the legal issues related to the death penalty and provides case briefs for the most important United States Supreme Court death penalty cases. No other book available brings together a discussion of the major constitutional issues surrounding the death penalty with a broad array of associated case briefs. The authors classify cases according to legal issues and provide a commentary on the various sub-topics, presenting legal materials in an easily understood form. Though the primary audiences of the book are undergraduates in criminal justice programs and practitioners in the corrections and justice systems, the book will also prove useful to anyone who has an interest in the death penalty, the criminal justice system, or the United States Constitution. Every chapter starts with commentaries regarding general case law in a sub-topic, such as aggravating and mitigating factors, followed by a chart of the cases briefed in the chapter, and then the case briefs. These case briefs acquaint the reader with Supreme Court cases by summarizing facts, issues, reasons, and holdings. The Death Penalty, Third Edition , is a succinct, trusted guide to the law of capital punishment in the United States.

How are individual and social ideas of late-onset dementia shaped and negotiated in film, literature, the arts, and the media? And how can the symbolic forms provided by popular culture be adopted and transformed by those affected in order to express their own perspectives? This international and interdisciplinary volume summarizes central current research trends and opens new theoretical and empirical perspectives on dementia in popular culture. It includes contributions by internationally renowned scholars from the humanities, social and cultural gerontology, age(ing) studies, cultural studies, philosophy, and bioethics. Contributions by Lucy Burke, Marlene Goldman, Annette Leibing and others.
