finished products for patients' use from a combination of materials (starting and packaging). Materials include starting materials, packaging materials, gases, solvents, process aids, reagents and labelling materials.

Pharmaceutical Guidance - Pharmaceutical Guidance

Inadequate standard operating procedures (SOPs) are one of the most frequently cited causes of many deficiencies and observations found in Forms 483 and Warning Letters. And while specific SOP issues can often be traced back to poor communication, monitoring, and/or enforcement, a poorly written SOP can quietly grow into a host of other major compliance problems.
